Lifestyle segmentations

Classic

Classic users appreciate products that combine the aesthetics of the past with present day technology.

This nostalgic link to former periods brings with it an insinuation of quality and bespoke hand-crafted luxury. 'Real materials' with ornate detailing radiate an intricate and rich aesthetic, yet performance and elegance are important to this segment.

Transitional

Transitional users value established quality and styling that maintains both a nod to the past and a firm look to the future. With a preference for harmonious soft flowing lines and conventional aesthetics, they select materials for their honesty and rational performance.

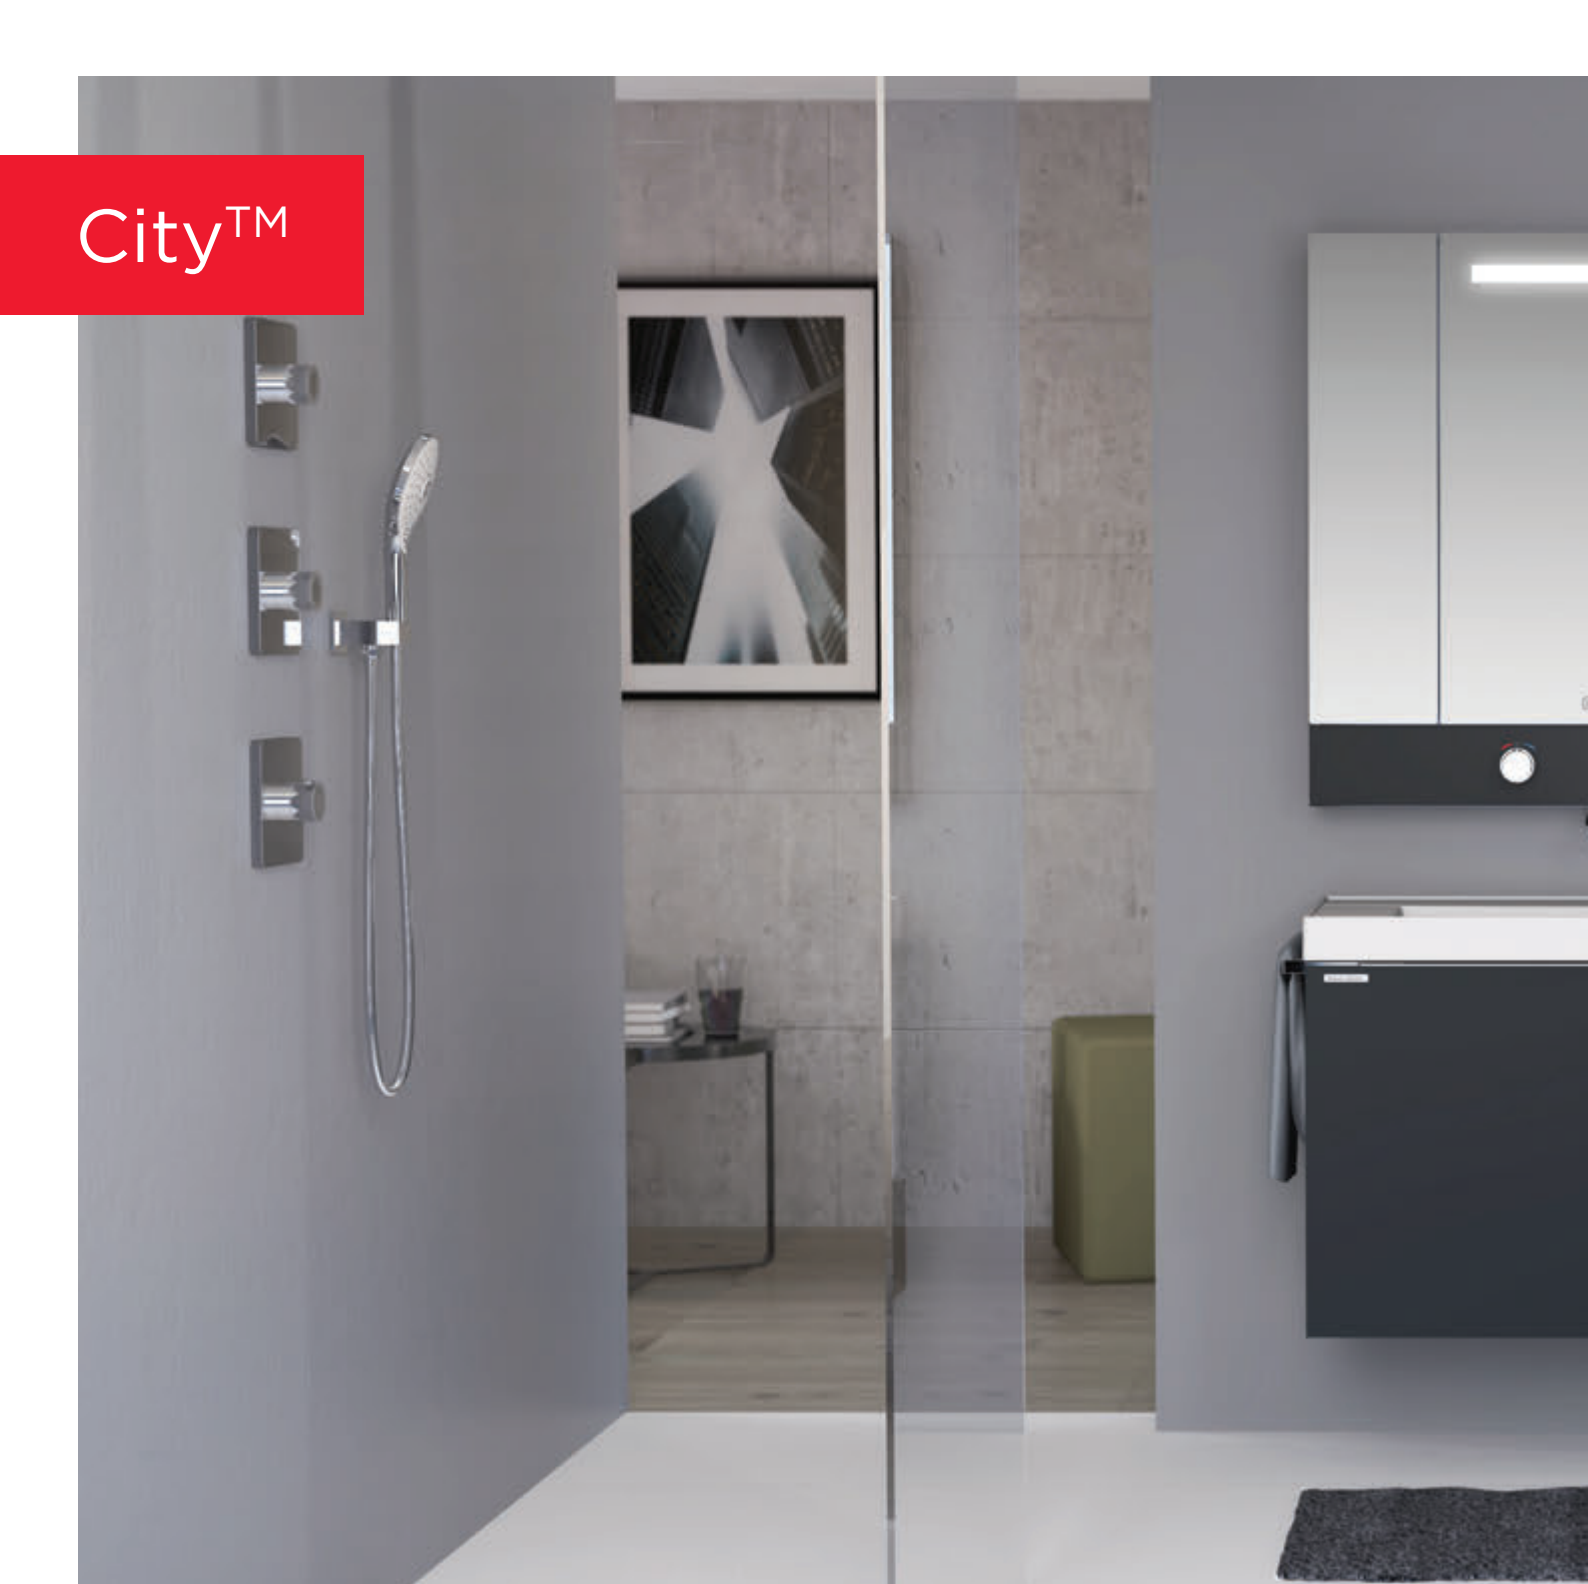

This profile tends towards an informal, casual attitude with an appetite for purposeful comfort and balanced appearance.

Contemporary

Contemporary users are confident and positive about the future. They desire the latest technology and are fearless in exploring modern aesthetic trends. With a preference for sensual simplicity, they expect their products to balance design and functionality. A reduced expression of form allows emphasis of the material, quality, texture and detail.

Trends are often born within this segment, which tends to stretch the imagination.

Inspired by space constraints, City™ Collection is specially conceptualized for space maximization and effortless cleaning - perfect for your urban living lifestyle. A photograph of a modern bathroom interior. In the foreground, a dark wood vanity with a white marble top holds a white vessel sink and a chrome faucet. A small glass container with toothbrushes sits on the counter. Above the sink is a rectangular mirror and two wall-mounted lamps with pleated shades. To the right, a white freestanding bathtub is visible near a window with sheer curtains. The floor is covered in large, light-colored marble tiles.

BATHTUBS

Thoughtfully designed for ultimate comfort and manufactured for durability, whether it is an exquisitely (seamlessly) designed wellness tub for a luxurious pampering or an intimate bathtub for a comforting wind-me-down, we are sure you will find your favorite American Standard tub here.

ULTIMATE COMFORT WITH THE WELLNESS SERIES

TWIN PLUS SYSTEM

Both whirlpool jets and blowers work together to pump air simultaneously from the bottom and sides of the bathtub, providing the full benefits of a hydro massage.

WHIRLPOOL SYSTEM

Air compression system creates a whirlpool effect throughout the tub, stimulating the body's own nervous and circulatory systems to improve nerve activation and blood movement.

AIRPOOL SYSTEM

Airpool system creates a profusion of tiny air bubbles to increase oxygen content, resulting in a freshening effect that relaxes the skin and relieves stress.

DRY JET MASSAGE SYSTEM

The system gently kneads the user's back and neck area to soothe aching and tired muscles.

OZONE GENERATION

Ozone has been medically proven not only to make air cleaner but also to alleviate or suppress maladies such as infections and allergic reactions.

HYGIENE

The wellness tub monitors the entire disinfection system to guarantee that germs do not remain after extended tub use, ensuring optimal user hygiene.

CHROMATHERAPY

A lighting system that uses multi-coloured light wave reflections for a holistic approach to healing one's body and mind.

WHITE

Increases calmness and rejuvenates one's body and mind

RED

Excites, increases heartbeat and blood circulation. Creates new energy and strength

GREEN

Cures anxiety, headaches and insomnia

BLUE

ORANGE

Disappears into the wall**Universal Installation Box/ FFAS0625-000990BFO**

American Standard now offers you a stylish and flexible installation to help achieve your dream bathroom. The Universal Box cleverly disappears into the wall, saving you space and allowing you to update your bathroom with beautiful concealed shower fittings. Because we understand those shower fittings that are flushed with the wall equal a more inviting space. We want you to have more room to move around in your bathroom, for that is your own divine relaxation space.

Besides allowing you to alternate mixer designs efficiently, the Universal box is suitable for different types of walls from thick to dry walls, as well as pre-fabricated housing systems. You can even install the Universal Box first, and decide on a mixer design at a later stage. The Universal Box offers you the freedom of choice, and is compatible with designs ranging from shower mixers to bath & shower mixers and thermostatic mixers.

Easy to install and maintain, this concealed installation provides greater flexibility for anyone building, planning or just looking to renovate.
